

The IFBA is pleased to collaborate with the A-PBA in the delivery of the IFBA's Professional Certifications during their upcoming 14<sup>th</sup> Biosafety Conference. The exam session will be held after the IFBA workshop in the afternoon of Tuesday, **September 17th in Dhaka, Bangladesh.**

In addition to offering the Professional Certification in Biorisk Management, we will also be offering the new IFBA Professional Certifications in Biosecurity, Biocontainment Facilities, Biosafety Cabinets and Biological Waste Management. Only those individuals who have successfully completed the pre-requisite Biorisk Management certification are eligible for these new certifications. For information on the exam content, study materials and sample questions, click [here](#).

All applications must be processed through the on-line Certifior system at <https://ifba.certifior.com>. These [instructions](#) will guide individuals through the application process. For further details and enquiries on this session please contact the IFBA Secretariat by email at [secretariat@internationalbiosafety.org](mailto:secretariat@internationalbiosafety.org).
